

A word cloud visualization centered around the theme of "information technologies". The words are arranged in a roughly circular pattern, with the most frequent and central term being "information". Other prominent words include "technologies", "storage", "search", "internet", "petabytes", "big data", "analysis", "government", "new", "development", "science", "technology", "management", "research", "process", "software", "sets", "million", "size", "large", and "large". The words are colored in various shades of blue, green, yellow, and red, and their size corresponds to their frequency in the dataset.
