Luxurious non-woven wallcoverings made in Belgium

Pure simplicity, tickles our imagination.

Every geometrical shape and pattern,
captures our gaze a little longer.

Modest while always effortlessly chic,
these designs mingle past and present.

Their authentic style

timelessly crafted, never dull.

Like a jet-black gem, they are
subtle and elegant, always precious.

ONYX

The **Art Déco style** has its roots in many different art forms, amongst them African and Egyptian art. To illustrate the strong influence these **ethnic designs and patterns** have had on the birth and growth of the French decoration movement, the Zoom collection **'Onyx'** marries the 2 styles **once more**. The result is an engaging blend of styles, showcasing the different genres in unexpected ways.

KAMI

'**Kami**' is a stripped-down Art Déco design. Its minimalistic approach is a present day translation of this art style. Through its thin, hand-drawn pencil lines this geometric drawing also approaches the artisanal, ethnic style.

Resembling a more traditional Art Déco design is '**Sydney**'. The fan design with a mirroring effect to create extra dimension, is one of the typical shapes of this style.

SYDNEY

RHOMBUS

The design '**Rhombus**' however is solely based on ethnic shapes and textures. It mimics the batik technique used to paint textiles. In this artisanal technique wax is used to prevent certain colors of dye from appearing on all parts of the design. By repeating the technique many times an intricate multicolored design is created.

The image features a dense, repeating pattern of stylized, overlapping fan-like shapes. Each fan is composed of numerous thin, curved lines radiating from a central point, creating a textured, scale-like appearance. The colors are muted, consisting of various shades of blue and purple, with the fans themselves being a lighter blue and the spaces between them being a darker purple. The pattern is arranged in a staggered, overlapping grid.
