Composite Flooring

Leben is a premium brand of Floor and Wall covering products. We at Leben consistently strive to bring the latest products & solutions in Decorative building materials from across the globe to your very door step. Our Products are manufactured globally to the highest European & American standards, built and tested to last a Lifetime.

Established in the year 2015, we have exponentially grown from offering a single solution to more than six different types of Floor & Wall Covering products in a meagre span of 3 years. We have sold and installed more than 5 Million Square feet of flooring and wall coverings in the past three years and our inventory is ever increasing with over 300 models in the offering.

Head quartered in the capital, Our network is rapidly expanding with hundreds of retailers across India joining hands with ours to offer true Luxury that's durable and affordable.

TRUSTED BY SOME OF INDIA'S MOST TRUSTED BRANDS

COMPOSITE FLOORING

a unique multilayer fusion of Vinyl and Polymer Composites that offers the same great looks and features of laminate & hardwood floors but has none of their limitations. Inspired by nature and designed for living, you'll find our floors beautifully realistic and highly practical.

100% WATER & TERMITE PROOF

Leben composite Flooring is a range of 100% waterproof flooring made from high quality polymers, ideal for areas with moisture and areas that require high maintenance such as hotels, restaurants, health clubs, etc. Unlike Laminate and wood floors which swell, discolor and decay with water, our floors are completely washable and maintain their structural integrity and remain as beautiful as new. The synthetic composition of Leben floors makes them 100% resistant to termites and borer. Our floors are covered against lifetime damage from termites making them the only interlocking flooring offering such warranty.

RESILIENT & DURABLE

Built tough to handle extreme traffic, our ultra tuff wear layer is twice more durable than a AC4 laminate flooring, which provides much more superior protection against surface abrasion, scratches & discoloration. Easy to clean and maintain, makes our floors the perfect choice for today's busy lifestyle.

QUICK INSTALLATION

Leben composite flooring is so easy to install that within hours you can makeover any room. Its patented valinge click lock technology ensures flawless interlocking of planks that brings out the most stunning finish and makes it the most convenient, clean & rapid flooring system.

SOUND ABSORBING

Multiple layer Polymer composition and Cushion backing makes our floors quiet & comfortable.

IMPACT ABSORBING

Incomparison to Cermamic & Marble flooring, our floors provide a cushioning effect that prevents falling objects from breaking easily and are more suitable for children and the elderly as they may have less injury on falling in addition to providing a soft and cushy feel.

TRULY AFFORDABLE

Leben composite floors are not only superior to laminate & hardwood floors but are also significantly economical than hardwood & engineered wood floors and at par with high quality laminate floors which makes them truly affordable.

NO HARMFUL EMISSIONS

Our floors have zero formaldehyde emissions & contain no toxic compounds, unlike laminate floors which may release carcinogenic fumes. Feel safe with your loved ones around our floors.

ENJOY THE PERFORMANCE
