## Stylish 3D panels infuse walls with **bold pattern**.

Zoomwall offers a collection of modern and contemporary wall designs. 3d wall panels with many different designs, varying from basic or industrial to modern or romantic: each design has its own look and creates a unique atmosphere.

Our wall panels are used for residential & commercial projects: hotels, office lobbies, retail outlets, restaurants, trade show exhibitions and more.

## Features & Advantages

### 01 100% SAFE MATERIAL

zoomwall 3d panel is made from environmental pvc materials. 100% safe for people and environment.

### 02 HIGHLY DURABLE

zoomwall 3d panel high resistance to shocks and external forces. Super durable & ultra lightweight.

### 03 MAINTENANCE FREE

zoomwall 3d panel 100% water proof. Easy cleaning and maintenance free.

### 04 SOUND INSULATION

zoomwall 3d panel volumetric properties that provide diffusing characteristics of acoustic energy.

### 05 TERMITES RESISTANCE

zoomwall 3d panel is completely resistant to termites and fungal attacks.

### 06 FIRE RESISTANCE

zoomwall 3d panel certified fire Ratings class A. specially resistant to high temperatures, fire and flame.

### 07 UV PROTECTED

A special UV protected treatment makes zoomwall 3d panel UV resistant direct sunlight exposure for long durations.

### 08 ZERO VOC EMISSIONS

No volatile organic compounds (VOC) emit from the panel. This means that our panels do not affect indoor air quality. This leads to safer, healthier, more comfortable buildings.

### 09 SPRAY PAINT

They can be used both in interiors (painted with water-based or oil-based paint using a transparent plastic primer before) and exteriors (painted with exterior paint).
